

Bailey Day

📍 Atlanta, GA 📧 baileyday.dev in linkedin.com/in/bailey-j-day/ 📄 github.com/BaileyDay

Software Engineer in pursuit of a B.S. in Computer Science at the University of North Georgia, specializing in JavaScript and Python. Strong administrative and logistical background from previous roles. Seeking to leverage my coding, debugging, and problem-solving skills in a dynamic and collaborative environment to deliver practical, real-life solutions.

SKILLS

Programming

Proficient in JavaScript, Python, Node.js, React, Express, Redux, RESTful API, PostgreSQL, MongoDB, Bootstrap, Flexbox, AWS Deployment, Docker, HTML, CSS, SEO.

Design

Experienced in Adobe Creative Suite: Photoshop, Illustrator, Premiere Pro, Indesign.

Logistics and Administration

Efficient in project documentation, procurement, and quality control. Prior experience with Automated Information Systems (AIS) used throughout the Defense Transportation System.

EDUCATION

B.S. in Computer Science (Minor in Cybersecurity)

University of North Georgia

Expected to Graduate in 2025.

2021 – present
Dahlonega, Georgia

Certificate in Software Development

Digital Crafts

2020
Atlanta, Georgia

PROJECTS

AniWave

aniwave.io

Solely built an anime media publishing site with a specific focus on SEO optimization. Utilized technologies such as Next.js, Sanity, and Tailwind to create a user-friendly platform for insights, reviews, and updates on anime and manga.

2023

Feedr

feedr.social

Independently developed a mock social network site using Next.js. The site includes user registration, a following mechanism, likes, comments, and data aggregation based on user preferences, demonstrating a nuanced understanding of social media platform functionalities.

2022

StonksJS

github.com/BaileyDay/StonksJS

Part of a three-member team that developed a dynamic index fund builder application. Designed user registration and login, custom index fund creation, and historical progress tracking.

2020

PROFESSIONAL EXPERIENCE

Administrative Clerk

Marinex Construction

- Handled procurement and record-keeping for operations supplies and services.
- Managed electronic documentation for quality control and daily reporting to the Army Corps of Engineers.
- Administered new hire paperwork, equipment damage, weekly operations, payroll, and injury and illness reports.

10/2015 – 12/2020
Savannah, GA.

Landing Support Specialist

USMC

- Performed logistical duties to support transportation throughput systems on beaches, landing zones, ports, and terminals.
- Operated Automated Information Systems (AIS) used throughout the Defense Transportation System.
- Coordinated port, and airfield, arrival, and departure.
